SUMMARY

Customer Support with 2.8 years of experience in handling customer inquiries, resolving issues, and ensuring high levels of customer satisfaction. Skilled in communication, problem-solving, ticket management, and delivering efficient support across phone, email, and chat channels while maintaining service quality standards.

WORK EXPERIENCE

Data Scientist | TSIT Digital

Feb 2026 – Apr 2026

Client: SONY

Bengaluru

- Developed Data Loss Prevention (DLP) automation systems using Python, significantly reducing manual effort.
- Built anomaly detection models to identify abnormal incident spikes using statistical techniques.
- Integrated REST APIs for employee data enrichment, improving incident analysis accuracy.
- Processed Outlook/Exchange data using win32com for email intelligence extraction.
- Automated reporting using OpenPyXL and XlsxWriter with dynamic formatting and summaries.
- Designed risk scoring models for incident prioritization and decision-making.
- Implemented logging, exception handling, and modular architecture for scalable and reliable systems.

Subject Matter Expert – Data Science & AIML

Mar 2025 – Dec 2025

iNurture solution Pvt Ltd.

Bengaluru

- Provided subject matter expertise and guidance to customers and team members, ensuring accurate and timely resolution of queries and concerns.
- Handled customer escalations, investigated issues, and collaborated with cross-functional teams to deliver effective solutions while maintaining high customer satisfaction.
- Conducted knowledge-sharing sessions and supported process improvement initiatives to enhance service quality and operational efficiency.
- Monitored customer interactions, maintained service standards, and contributed to achieving team KPIs related to response time, resolution rate, and customer experience.

Analyst – (sales team) Power BI / Salesforce

Nov 2024 – Mar 2025

BlitzScale Software Solutions Pvt Ltd.

Bengaluru

- Analyzed customer queries and support trends to identify recurring issues, contributing to improved resolution efficiency and enhanced customer satisfaction.
- Supported customer engagement initiatives by providing accurate information and personalized assistance, helping improve service quality and client retention.
- Collaborated with internal teams to streamline support processes and optimize workflow management, reducing turnaround time for customer requests.
- Developed reports and dashboards to track key support metrics, enabling data-driven decision-making and continuous improvement in customer service operations.

- Assisted students and clients by addressing queries related to courses, career opportunities, and program enrollment, ensuring a positive customer experience.
- Managed customer interactions through calls, emails, and chats, providing timely resolutions and maintaining high satisfaction levels.
- Collaborated with internal teams to resolve escalations, improve service delivery, and ensure seamless support throughout the customer journey.
- Maintained accurate records of customer interactions, prepared reports, and monitored key metrics to support process improvements and operational efficiency.
